Professional Summary

Technical team lead delivering enterprise solutions across banking, financial services and insurance (BFSI). Hands-on Java, Spring Boot and Angular engineering, with system design, API integration and end-to-end delivery.

Professional Experience

Senior Technical Consultant | Streebo

Jan 2024 - Present

- Lead a team on a global financial services engagement, owning delivery from business requirements and technical design through hands-on implementation, integration and release.
- Translate requirements into system flows, high-level design (HLD) and low-level design (LLD); guide implementation decisions, resolve integration dependencies and align work with business and QA teams.
- Built Angular and Spring Boot business applications with role-based access, internal APIs and third-party integrations.
- Led the introduction of Oracle APEX and built a reporting tool with role-based access, reporting screens, dynamic SQL query generation and auditing.
- Contribute to credit-card applications across multiple regions; investigate customer and production issues, perform root cause analysis (RCA) and coordinate fixes through resolution.
- Improve Jenkins deployment pipelines and SonarQube code-quality checks with QA and production teams.
- Created a GitHub Copilot agent for documentation, comments and code updates under defined standards; added GitHub workflows for OWASP dependency checks and code scanning.

Technical Consultant | Streebo

Jan 2021 - Dec 2023

- Migrated banking services from IBM MobileFirst 8.x to Java and Spring Boot, adapting SQL, HTTP and Java integrations for loan, EMI and payment journeys with Cordova and APIGEE.
- Built insurance customer and agent workflows for policy services, payments, document uploads and offline journeys; integrated MobileFirst adapters, OTP handling and messaging services.
- Developed hybrid features for statements, transfers and payee management; contributed frontend, adapter and migration work to an education application for syllabus and schedule access.
- Automated frontend and backend deployments with Jenkins and used SonarQube for code-quality checks.

Associate Technical Consultant | Streebo

Jul 2019 - Dec 2020

- Independently led Angular 8 and Ionic UI development for telecom customer and agent journeys, including know your customer (KYC) and optical character recognition (OCR) for document verification.
- Contributed to a MobileFirst 7.x to 8.x migration, updating UI and server-side adapters and replacing discontinued APIs with Cordova plugins; participated in estimation, testing and client queries.

Internship Trainee | Streebo

Jan 2019 - Jul 2019

- Developed Angular and JavaScript interfaces, Java backend modules and MySQL integrations for insurance applications.

Internship Trainee | Silverwing Technologies PVT LTD

Oct 2017 - May 2018

- Built responsive shopping websites with HTML, CSS, JavaScript, Bootstrap, AJAX, PHP backend features and SQL.

Technical Skills

Development and integration: Java, Spring Boot, Spring MVC, JDBC, JPA, Angular, TypeScript, JavaScript, SQL, REST APIs, schedulers, third-party API integration and bureau integrations, APIGEE

Platforms and tools: Oracle APEX, IBM MobileFirst, Worklight, WebSphere, Liberty, Apache Tomcat, Ionic, Cordova, Oracle Database, SQL Server, MySQL

Leadership and delivery: Team leadership, HLD, LLD, system flow design, business communication, Agile, Jira, draw.io, Git, Bitbucket, Maven, Jenkins, SonarQube, RCA

Domain and workflow experience: BFSI; credit-card statement enhancements, loan functionality, e-voucher integration, benefits updates, insurance workflows, KYC and OCR

Education

Bachelor of Engineering (B.E.) in Information Technology | L.D. College of Engineering

2015 - 2019

Certifications

AWS Certified Cloud Practitioner | Amazon Web Services | Issued Apr 2025 | Expires Apr 2028

Current learning: Large-scale system design, advanced DSA, Python and applied AI through study and personal projects.
